New Report: Programs everyone in NC depends on are at risk if we do not count every child. Young Latino children are considered one of the groups hardest to count in the US Census. If you work with families - you can help! Get the report: <u>bit.ly/NCundercount</u>

JUST RELEASED: New report from @ncchild and @naleo finds more than \$16 billion/year is dependent on an accurate census count in 2020. Road construction, first responders, school lunches, foster care, and much more are at risk if we do not count every child. <u>bit.ly/NCundercount</u>

New Report: NC must make a concerted effort to reach NC's Latino families ahead of the 2020 Census. If the count is not accurate, we will feel the consequences for the next decade. Read more: bit.ly/NCundercount NC C
