

**NC CHILD'S
STRATEGIC PLAN**
2024-2026

Every child deserves a chance in life.

They deserve a safe, healthy, and happy childhood and the opportunity to reach their full potential. Yet for far too many children, those dreams are not reality.

NC Child is changing that.

Established in 2014 following the merger of Action for Children North Carolina and the Covenant with North Carolina's Children, NC Child is the independent voice for North Carolina's children.

As the state's only multi-issue child advocacy organization, NC Child's work addresses policies that affect the whole child, including health and well-being, early childhood education, and family economic security. We believe that the voices of youth and families are critical to identifying these specific needs, and NC Child is committed to uplifting those voices in every aspect of our work. We are committed to building and maintaining relationships with elected officials and decision-makers to advance policies that benefit our children.

NC Child is a leading source of state-level research and data on the issues affecting children and families, and we serve as a trusted and reliable resource for policymakers and other child advocates and organizations across the state.

NC Child laid out a path for our organization to meaningfully improve the lives of all of North Carolina's children. Through our work, we will ensure that children and families have sufficient and comprehensive access to the different kinds of resources they need— all with the goal of securing a better future for every North Carolina child.
